

TriCor Memory

Solutions that fit your needs
Without compromise

Memory Modules

TriCor Technologies' memory modules are compliant with current industry standards as published by JEDEC. TriCor chooses the ideal components for your memory application needs and locks them into a controlled bill of material (BOM) for product consistency and confidence. Eliminate the validation headaches with a team that provides what you want and exactly how you need it time after time.

TriCor's DIMMs are manufactured in Texas, Mexico, and Taiwan. All varieties of JEDEC standard DDR4, DDR3, DDR2, and DDR memory modules are available.

Just request a quote and datasheet and find out how TriCor can provide the right memory solution at the right price for inclusion in your products.

Memory Product Line Up

| DDR4 Modules | DDR3 Modules | DDR2 Modules | DDR Modules | Legacy Modules |
|----------------|----------------|--------------|-------------|----------------|
| ECC UDIMM | ECC UDIMM | FBDIMM | UDIMM | EDO |
| ECC RDIMM | ECC RDIMM | ECC RDIMM | SODIMM | FPM |
| ECC Mini UDIMM | SODIMM | Mini RDIMM | ECC UDIMM | SDR |
| VLP Mini UDIMM | VLP RDIMM | SODIMM | ECC RDIMM | |
| SODIMM | VLP Mini UDIMM | | | |
